Hispanic Council Representative

Mark Tobin
Louisiana Pacific Corporation

In April 2012, the building we purchased to be our new \$5 million community center was a shell – an empty 16,800-square-foot space with nothing but gravel floors and exterior walls.

In December 2012, just 5 months after the groundbreaking, our agency, Conexión Américas, held a Grand Opening Celebration welcoming several hundred guests from all over Middle Tennessee to see the beautifully designed and constructed Casa Azafrán Community Center.

We told, and continue to tell, guests at Casa Azafrán we are grateful for Dowdle Construction Group for the professionalism and dedication to this unique Nashville project. The project team's hard work and attention to detail allowed us to meet a tight construction schedule. And, superintendent Jeremy Carpenter specifically, provided exceptional responsiveness (and good humor) when the inevitable obstacles arose.

We are grateful to the team at Dowdle Construction and proud to call them an important part of Casa Azafrán's story.

Sincerely,

Renata Soto
Executive Director
Conexión Américas
